19 December 2016

Dear Valued Customer

Our Transport team have faced significant challenges to maintain our service to you since the latest Kaikoura earthquake and has continually been innovative and passionate about moving your product through the network to get your product to markets and DCs on time.

The Earthquake has taken a toll on the country and as a result the Main Rail Lines in South Island have been damaged. This in turn has brought about Interislander having 50% utilization passing a 15.5% Ferry Surcharge to all transport companies using this service as of the 16th of December. Transport has worked hard to minimize all effects on customers, by only passing on a increase of \$7.50 a lift.

Transport will be carrying the cost of the levy for the first week to allow our customers to adjust their prices. The rate increase will be taking effect as of the 23rd of December 2016.

Please keep up to date with all changing on our website:

www.turnerslogistics.co.nz

If you have any questions please do not hesitate to contact our team.
