Dear Valued Customer

The T&G Transport team have been working hard to resume services between the North and South Island, which have been delayed due to the unfortunate earthquake event in the South Island in the early hours of Monday morning.

In order to connect Picton and Christchurch by road due to the road closures around the North Canterbury and Marlborough regions our trucks will have to be routed via much longer alternative routes. As a result of these increased travel times we will need to pass a short term extra cost onto our customers of \$30 per lift space for any freight that travels on this temporary diversion. Once State Highway One re-opens we can resume normal services and remove this extra charge.

If you have freight moving inter-island please be mindful of this extra travel time and please ensure freight is booked and dropped off at our depots as early as possible. We will endeavour to keep you informed of any further interruptions or delays.

If you have any questions please do not hesitate to contact our team.

North Island – Shaun Batty 021 839 274

Business Development – Garrett Hoffman 021 286 4785

South Island – Billy Smith 027 277 9127

Regards

Brent Main

Supply Chain Manager
